# DIGITAL (MOBILE) COUPONS

Did you know **over 80%** of customers have their phone within reach **22 hours** of the day! Digital coupons efficiently deliver repeat business inside a slick solution with higher redemption rates than old paper coupons. These mobile friendly advertisements are a great way to complement an existing loyalty strategy and push higher margin services.

## HIGHLIGHTS INCLUDE:

- **Easy 1 Tap Redemption:** Patrons tap an optional Redeem button for easy “Show & Save” redemption from their mobile phone and again to confirm.
- **Fraud Prevention:** Prevent redemption abuse with our live countdown time and automatic expiration to prohibit the same customer from redeeming the same offer more than once.
- **Reporting:** The system tracks all views, opens and redeems inside the back office for efficient tracking and reconciliation.
- **Versatility:** Digital coupons are not just for discounts. You can use the tool to circulate any type of mobile friendly advertisement hyperlinked to an email or text campaign.

**Pricing:** Your digital coupon template is 100% custom designed around your brand/social media and setup for recurring reuse. Order new designs added to your **MARKETING> Digital Coupon Templates** library for \$50.00 each.

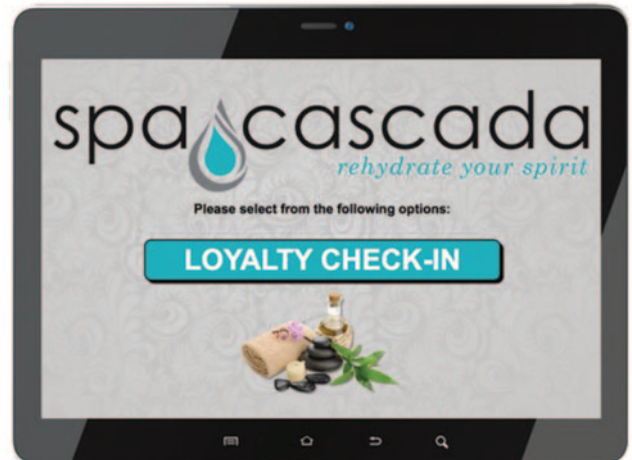

# LOYALTY CHECK-IN KIOSK

Grow your customer list **EFFORTLESSLY** and run a **SIMPLE** loyalty program that rewards customers on frequency (visits) as opposed to dollars spent. The Loyalty Check-In Kiosk is an easy-to-use tablet which provides your customers with a user friendly and engaging way to do any of the following:

- Join your mobile club, VIP or loyalty program
- Record a check-in visit for loyalty credit
- Like your business on Facebook or follow on Instagram
- Issue/redeem mobile coupons based on check-in frequency

We help you setup a customer facing tablet that is affixed to a counter, floor stand or wall that advertises the benefits of joining your mobile/VIP/loyalty list. The display is fully customized featuring your logo and branding elements. Customers engage with the tablet in an easy touch screen process that asks only for input of their mobile phone number. The magic behind the scenes does the rest!

**Pricing:** Kiosk custom design and configuration is a one-time \$199.00 setup fee. Tablet (hardware) not included. Use any tablet of your choice and we'll send you pairing instructions for broadcasting the kiosk using internal Wi-Fi.
